Enjoy Quality & Convenience with AFS Instant Sauce Bases

Today's consumers seek convenient foods that can be quickly prepared and have a made-from-scratch quality. To meet these demands, food manufacturers are challenged to produce new products while keeping production lines efficient and inventory low. **AFS Instant Sauce** bases offer solutions to both of these challenges!

AFS Instant Sauce bases are formulated with high quality functional and flavor ingredients and are manufactured in our **SQF certified** facility. These sauce bases only require simple mixing of powder, water and occasionally, other common ingredients such as oil. The sauces have excellent **freeze-thaw stability** and upon microwave cooking, exhibit strong **emulsions**, excellent **texture** and pleasing **aromas**. Each is also designed to cling to other components of the dish during cooking. The sauces can be combined with beef, poultry, seafood or vegetables to create unique and flavorful entrees, side dishes or fillings.

The **AFS R&D** team can develop **custom flavor profiles** or tailor existing flavors to meet any ingredient or allergen restrictions.
